------------	-------------------	----------------------	----------------------	----------------------

The SAT score of 1400 is derived from adding the math and EBRW section scores. The math score of 780 is found by multiplying the math test score of 39 by 20. The EBRW score of 620 is found by multiplying the test scores from the two verbal sections - 28 on reading and 34 on writing and language - by 10, then adding them together.

The ACT composite score is found by taking the average of the four sections. Composite scores are always rounded to the nearest whole number - rounded up when the average ends in .5.
